About Me

Driven Frontend Developer adept at using HTML, CSS, JavaScript, and React.js for problem-solving and creating engaging web applications. Eager to bring technical skills and a problem-solving mindset to a dynamic team, aiming to improve user experiences and contribute to innovative solutions.

Professional Experience

Intuitive Apps | Frontend Developer – React
June 2023 – Present

Key responsibilities:

- Developed and maintained responsive web applications using React.js, optimizing for performance and cross-browser compatibility
- Integrated frontend components with backend services via RESTful APIs, leveraging Postman for API testing and debugging to ensure seamless data exchange
- Designed and implemented user-friendly web pages, applying best practices in UI/UX to enhance user engagement and achieve business objectives.
- Led the deployment and continuous improvement of web projects

Projects

Personal Website

🔗 [Demo Link](#)

- Built a simple and minimal dark theme personal website with reusable components and responsive design.
- Tech Used : Html, CSS5, Bootstrap, React

Netflix Clone

🔗 [Demo Link](#)

- Built a simplified Netflix clone in React.js featuring login/logout functionality and a home page, emphasizing API use for content display.
- Tech Used : Html, CSS5, Bootstrap, React, Firebase Authentication, TMDB Api

HRMS

- Contributed to the development of a comprehensive HRMS platform using React.js and Redux, implementing advanced features for employee management, payroll processing, and attendance tracking, demonstrating strong proficiency in modern web technologies and state management.

Certificates

- Programming Foundation using JavaScript, HTML, and CSS
- AWS Builder Online Series
- Two-Day Workshop Cybersecurity and Blockchain Technology
